

LOIS OKEREKE

FRONTEND ENGINEER

ABOUT ME

Frontend Engineer with 4+ years of experience building production-grade web apps and dashboards for SaaS, fintech, and B2B platforms. Skilled in React, TypeScript, Next.js, and modern state management. Experienced in creating scalable component architectures, integrating REST/GraphQL APIs, implementing real-time features, and delivering high-performance, data-driven UIs.

EDUCATION

Frontend Engineering Course Certificate

2021-2024

- Coursera

Recent Project Link

[FoodSwift PWA](#)

SKILLS

- Frontend:** React, Next.js, Astro, TypeScript, JavaScript, HTML5, CSS3, Tailwind, SCSS, MUI, Headless UI
- State Management:** Zustand, Jotai, Effector
- Data Fetching:** React Query (TanStack), Apollo Client
- Data Visualization:** Recharts, ECharts
- Architecture & Performance:** SSR/SSG, code splitting, caching, virtualization, accessibility
- API Integration:** REST, GraphQL
- Tooling:** Storybook, Git, GitHub, Vercel, Jira, CI/CD

WORK EXPERIENCE

Lagetronix

Frontend Engineer - Contract

Remote
April 2025 - Present

- Led migration from React 16 to Next.js 13 App Router, improving load time by 35%
- Built a modular, reusable component library with Storybook, increasing dev speed by 40%
- Implemented real-time dashboards using WebSockets + React Query
- Collaborated with backend and product teams to refine UI/UX and improve feature delivery
- Mentored 3 junior developers, boosting team velocity and code quality

Pro-Ice

Frontend Developer - Part-Time

Remote
April 2024 - Present

- Rewrote legacy class components into modern functional components with hooks
- Integrated GraphQL services using Apollo Client for faster and more stable data fetching
- Enhanced performance and accessibility (Lighthouse score improved 74 → 95)
- Improved mobile responsiveness and reduced UI inconsistencies across the app

LexJon Technologies

Frontend Developer - Contract

Lagos, Nigeria
November 2024 - January 2025

- Designed a modular dashboard architecture using React + TypeScript
- Integrated REST & GraphQL APIs with optimized caching and error handling
- Implemented data virtualization using React Window (render speed improved 60%)
- Built custom charts, advanced filters, and analytics components
